14. Resources

Infectious Diseases Epidemiology & Surveillance (IDEAS)

Aimed at health professionals, the IDEAS website provides information on the prevention and control of infectious diseases, regulations and guidelines, surveillance of infectious diseases and notification procedures.

Immunisation

The immunisation website provides fact sheets for vaccines and resources for immunisation providers.

Better Health Channel
http://www.betterhealth.vic.gov.au

The Better Health Channel provides the community with access to online health related information which is quality assured, reliable, up-to-date and locally relevant.

Health Translations Directory
http://www.healthtranslations.vic.gov.au

The Health Translations Directory provides access to translated health information available online.

Clinicians Health Channel

Provides access to critical knowledge bases for clinicians in the public health care sector in metropolitan, regional and rural Victoria. This includes the electronic dissemination of information and access to various electronic resources such as citation databases, drug and prescribing information and clinical guidelines.
